

Privacy statement

Medical Training Tools B.V. (hereafter: "Medical Training Tools") greatly values the protection of your privacy and thus we also carefully process and securely store your (personal) data. In this privacy statement we explain which personal data we collect and use and for what purpose.

Processing of personal information

Medical Training Tools can process your personal information because you make use of our services and/or because you have provided it to us. We process this information for the implementation of our services and to inform you concerning modifications of our services and products.

Should you contact us via our contact form, we ask for your first and last name, your email address and a few additional details. We use this information purely for the processing of your request. You always have the right to be informed concerning the information we have about you and, should you desire, ask for it to be modified or deleted. You can do this by sending a request specifying this to mulders@medicaltrainingtools.com. To ensure that the request is being processed on your own behalf, we ask that you send a copy of a piece of identification together with the request. To protect your privacy, please black out the photograph, MRZ (Machine readable zone, the numbers at the bottom of the passport), passport number and your identification number (SSN or TIN) on the copy. Medical Training Tools shall respond to your request as quickly as possible, and certainly within four weeks.

In addition, we are interested in information that gives us insight into the use of our website, for instance, the number of viewers in a specific period, from which countries they come and which pages are viewed most frequently. Therefore, we register your IP address and the name of your domain. To adapt the facilities and functions to our users' equipment, we also track the browser you use to approach our site. The information we receive via this website is the property of Medical Training Tools and is used to improve our service and marketing activities. The information thus acquired is never sold or lent to others.

Medical Training Tools uses cookies when offering electronic services. A cookie is a simple small file that is sent with the pages of this website and through your browser which is stored in the hard drive of your computer. We use cookies to remember your settings and preferences. You can turn these cookies off via your browser. The manner to do so varies per browser, consult the help function of your browser if necessary. You can also turn cookies off entirely, but this will limit your user experience of the website.

Via our website there are also cookies placed by the American company Google, as part of the "Analytics" service. We use this service to track and obtain reports about how visitors use the website. Google may share this information with others should they are legally required, or if another party analyzes it on behalf of Google. We have no say in this matter.

The information and personal information are treated as confidential, also by third parties who are responsible for the safety of your data storage, and will not be used for other purposes than stated.

Use of personal data

Medical Training Tools gathers and uses your personal information to manage the Medical Training Tools website and to provide you with the services and products you request. Medical Training Tools can also use your information to keep you informed concerning the services of Medical Training Tools.

Transmission to third parties

Medical Training Tools does not sell, rent or lease their client lists to third parties. Medical Training Tools will never publicize your personal information, unless it is legally required, or we believe in good faith that such action is necessary to:

- Fulfill a legal request or lawsuit; or
- To protect and safeguard Medical Training Tools' rights of ownership; or
- To act during urgent circumstances to protect the safety of users of Medical Training Tools or the public.

Retention of personal data

Our guiding principle for the retention of personal data is not to save such information longer than necessary. Medical Training Tools will not retain personal data longer than is strictly necessary to realize the goals for which the materials are being gathered.

Excluded from this are data that we are legally required to retain for a longer period.

Safety of personal information

Medical Training Tools ensures the appropriate organizational, technical and physical security of your personal data. Medical Training Tools retains the personal information that you supply to computer servers in a controlled, safe environment, protected from unauthorized access, use or disclosure.

Modifications of the privacy statement

This privacy statement can be modified. Medical Training Tools will occasionally update the privacy statement to reflect company and client feedback. Medical Training Tools suggests that you occasionally review this statement to stay informed about how Medical Training Tools protects your information.

Contact information

Medical Training Tools is happy to receive your feedback concerning this privacy statement. If you feel that Medical Training Tools has not adhered to this statement, you can contact Medical Training Tools via email, mulders@medicaltrainingtools.com or by telephone, 31-6-22661068.

Disclaimer

This website is the property of Medical Training Tools. The access and use of this site are subject to this Disclaimer and the Privacy Statement. By using the site, the user accepts the terms as stipulated in the Medical Training Tools Disclaimer and Privacy Statement.

Medical Training Tools is responsible for the information on this website. Medical Training Tools takes the utmost care possible to ensure the reliability and topicality of this website. Medical Training Tools cannot provide any guarantee that the information on this website correct and/or complete is/or remains. No rights can be derived from the contents of this website.

Medical Training Tools is not liable for damages resulting from inaccuracies or incompleteness of the information provided, nor for damage resulting from problems caused by, or inherent to, the distribution of information over the internet. These include failures or interruptions or error or delays in the provision of information or services by Medical Training Tools or by you to Medical Training Tools by means of the Medical Training Tools website or other electronic means.

In addition, the information on this website is intended to provide general information to those interested. Medical Training Tools accepts no liability for any damages that result from the use of data and/or information provided by, or on behalf of, Medical Training Tools via this website. Medical Training Tools assumes no responsibility and/or liability for the content of websites referred to or linked to by a hyperlink or otherwise referred to.

Medical Training Tools does not guarantee that any emails or other electronic messages forwarded to it will be received and processed in good time and shall not be liable for any consequences of the failure or delay in receiving or processing them. Furthermore, Medical Training Tools accepts no liability whatsoever for the interception or misuse of electronic messages by third parties.

Medical Training Tools is the copyright owner in respect to all information provided on this website (including copyrights, domain names, trademark rights, patents or other intellectual property rights). It is not permitted to copy, download, distribute or reproduce information from this website without prior written consent of Medical Training Tools.

Medical Training Tools, its licensors and/or partners hold the intellectual proprietary rights to all content accessed via the website. This includes, but is not limited to, the texts, sound and visual material, images, software, design, brands, logos and any other information and databases. You may use this content only to utilize the website and the services offered therein. Without the express prior written consent of Medical Training Tools, you may not use the content for any other purposes, including, but not limited to, the reproduction and/or disclosure of the content or the provision thereof to third parties, for any purpose, commercial or otherwise, unless this is permitted under mandatory law.
